The Oil Smart Switch with panel or alarm, when combined with a pump, allows water to be pumped from Elevator sumps, leachate wells and transformer vaults without danger of pumping oil into sewers and waterways.

### FEATURES

- Protects environment from hazardous waste
- The solid state device senses between oil and water
- Panel and switch kitted with effluent single phase pumps.
- Only operates pump if water is sensed by probes. Does not operate if oil is present in pit.

CentriPro is a brand of ITT Corporation.

### **OIL SMART® SWITCH**

---

- Solid state sensing device that differentiates between oil and water
- Two sense points, Pump On and Pump Off, reduces the risk of pumping oil or other hydrocarbons into the environment
- Includes mounting hardware
- Pump On position is the shorter rod
- Pump Off position is the longer rod
- Pumping Differential: 6"
- Dimensions: 2.5" wide x 6" high (body less rods) x 1.75" deep.
- 20' cord
- Completely encapsulated and water-tight.
- CE, UL 508, UL Marine and CUL Listings
- Exceeds U.S. Coast Guard Standards.
- Complies with State and Federal regulations and reduces the risk of adverse publicity and expensive cleanup costs.

**Part Number** A1SEEWATER  
A1SEEWATERP (with plug)

### **OIL SMART® ALARM**

---

- Alarm leak or liquid detection
- 120V
- Includes Liquid Smart® Sensor
- Sensor differentiates between oil and water
- Alarm indication differentiates liquid
- Dry contacts

**Part Number** A4-SEE1

### **SIMPLEX PANEL**

---

- Simplex, 115 or 230 volt, 1Ø Panel in rugged NEMA 4X fiberglass enclosure with locking hasp and hinged door.
- Use with our model A1SEEWATER Oil Smart sensor to control a sump/effluent pump in areas where oil may be present.
- The sensor differentiates between oil and water. The panel and sensor will not allow the pump to operate unless water is present, eliminating environmental contamination and costly oil cleanups.
- High level alarm features a top mounted high intensity red alarm light with 360° visibility and a 95db corrosion resistant alarm horn.
- Terminal strip with connections
- Entire panel is UL and CUL Listed.

**Part Number S120ENPR**

*\* Switch not included.*

### **DUPLEX PANEL**

---

- 1Ø Panel, 115 / 208 / 230 volt
- Two 20 amp motor start relays
- Operates pumps: up to ¾ HP at 120V  
up to 2 HP at 230V
- Includes Liquid Smart® alarm sensor
- Alarm indication differentiates liquid
- Includes high water 2-pump demand switch
- Includes Oil Smart® pump controller
- Alternation, 2-pump high demand, pump no load lockout.
- Seal fail fault and high temperature
- NEMA 4X enclosure
- Dry contacts

**Part Number D1SEE20**

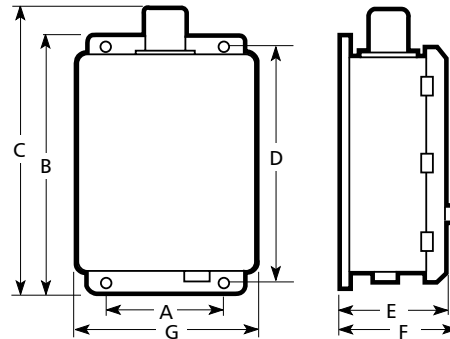

*\* Switch and controller included.*
